

# ALL SAINTS SCHOOL

## The Wally Shepard Gym Renovation Project

*Keeping the legacy alive!*

### Project Overview

The Wally Shepard Gym Renovation Project is dedicated to transforming our existing gym into a modern event and sports facility, ensuring a safe and comfortable environment for students, parents, coaches, and teachers. Key enhancements include upgrading the heating, ventilation, and air conditioning, modernizing restroom facilities, increasing the capacity of the current electrical system, and providing a dedicated office for our PE teacher. Additionally, we are installing a new court floor, enhancing the lighting, and painting the gym in our traditional school colors. *Go Ramblers!*

### Honoring Wally Shepard

Wally Shepard's spirit is deeply woven into the fabric of the All Saints community, especially in the gym named in his honor. Revered as a kind, persistent, humble, and focused servant of God, Wally was many things to many people: friend, teacher, mentor, coach, colleague, confidant, role model, godfather, confirmation sponsor, father figure, and devoted husband to his beloved wife Mary. His distinctive way of addressing students as "People!"--whether in encouragement or discipline--remains a cherished memory. Wally's spirit inspires us to undertake this much-needed renovation of the Wally Shepard Memorial Gym. Wally's dream of having a gym at All Saints became a reality in 1983, and since then it has been a cornerstone for our school and community. Now, 41 years later the gym requires essential renovations to maintain its service to the community and uphold Wally's vision. And, just like a team, we need everyone to come together to help us reach our goal - to honor Wally's legacy and make this renovation a smashing success!

***“People! Let’s do this!”***
